

# Stonebridge Lofts - Market Rent Survey Context

## Document Role

This survey provides market rent context only. It should not override the rent roll market rents.

## Market Rent Survey

| Field                 | Source Value                                            |
|-----------------------|---------------------------------------------------------|
| 1BR Market Rent Range | \$2,100 - \$2,250                                       |
| 2BR Market Rent Range | \$2,500 - \$2,700                                       |
| Broker Opinion        | Market rents could exceed current rent roll assumptions |

## Limitations

Context only; not a modeled rent-roll override.

Do not use survey rents to inflate Annual Market Rent or Rent Gap.

The rent roll remains the source of record for in-place and market rent fields in launch-mode reporting.
